## Upcoming NEC Advanced Manufacturing Events in Rhode Island, Vermont

Dear NEC Advanced Manufacturing Working Group member –

As part of the rollout for our new report with Deloitte, entitled [Advanced to Advantageous: The Case for New England's Manufacturing Revolution](#), The New England Council and Deloitte are organizing events in each of the six New England states to present the report to a wide group of stakeholders and facilitate discussion between industry, higher education, and state and local government. The first two events in this “roadshow” have been announced, and we hope that you will join us for timely discussions in Providence on June 8<sup>th</sup> and Montpelier on June 9<sup>th</sup>. We also encourage you to share this invitation with colleagues and friends in the region who might be interested. Each event will feature a presentation of the report from Deloitte as well as an in-depth panel discussion with key leaders from each state. **There is no cost to attend but registration is requested.** Additionally, we will be announcing additional events for other states in the coming weeks – please stay tuned.

Here are the details for our Rhode Island and Vermont report rollout events:
